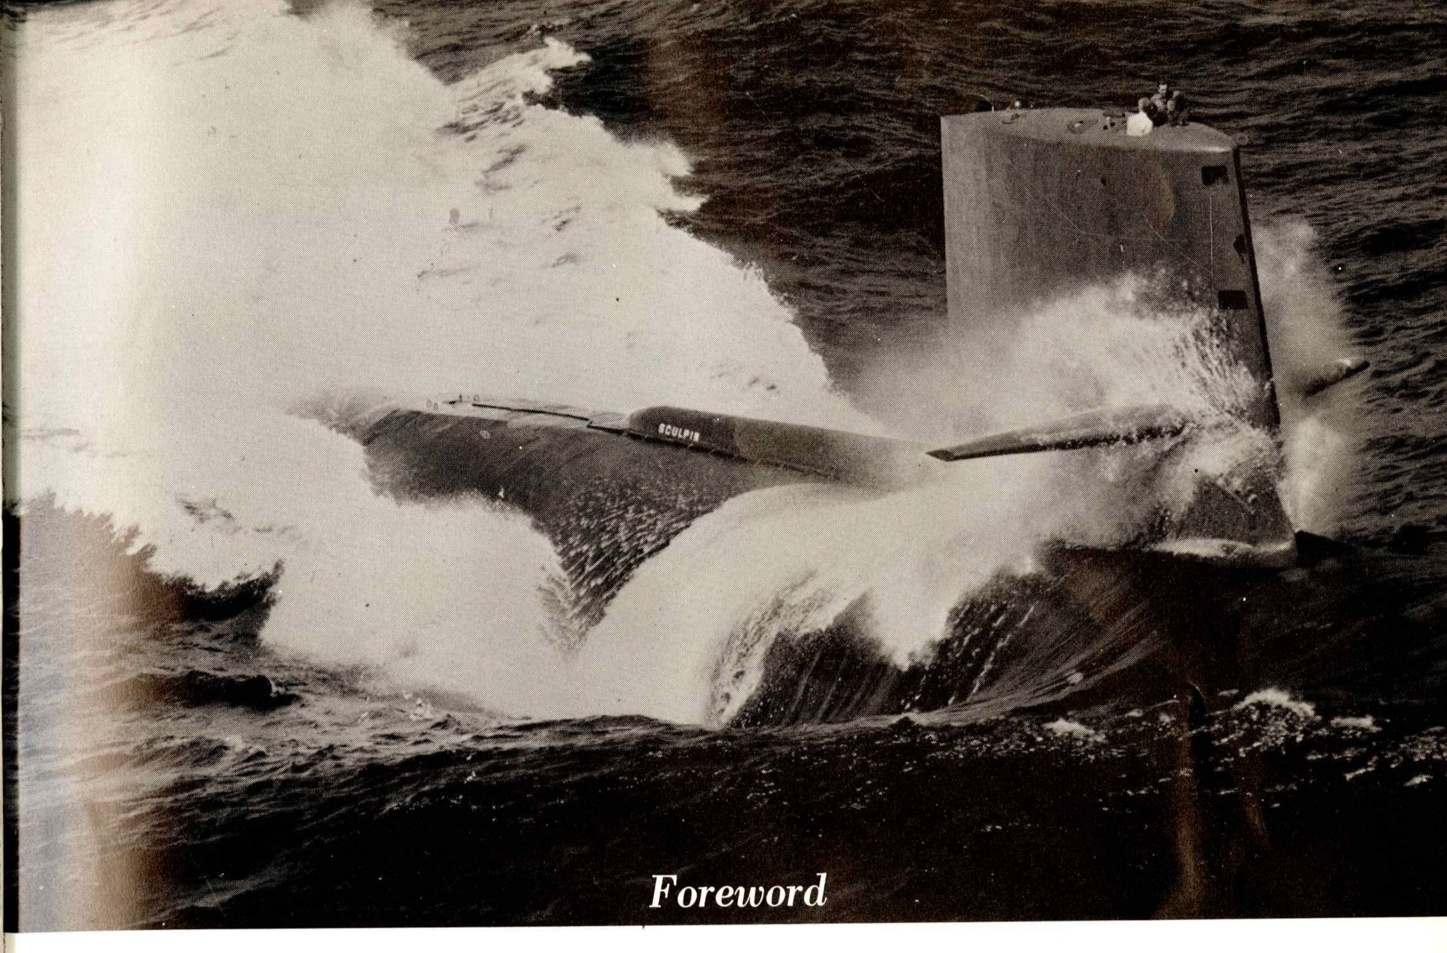
MRS. P. J. HIGGINBOTHAM

a person who has given so unselfishly of her time, talents, and youthfulness in an effort to create a more perfect relationship among the students and faculty of Pascagoula High School; a person whose value to the school, community, and mankind can never be measured by any monetary sum; a person whose wit, sincerity, guidance, and Christian attitude can never be removed from the halls of PHS; a person known and loved by many simply as "Mrs. Higgy" . . .

PETER J. WILHOUSKY

Mrs. Higgy strikes a pose familiar to many students.



Foreword

This is Pascagoula High School; this is familiar.

Just as this modern world boasts representatives of the past along with phases of the new life, so does PHS represent the old with the new. From the faded brick facade to the beautiful new science building, Pantherland contains history, charm, and an endless world of memories—history in the darkened halls that majestically echo the movements of a proud generation; charm in the attractiveness and friendly attitude of the outstanding student and teacher; and memories in every phase of campus life. Yes, this is PHS; this is familiar.

The quiet hush of superb discipline contrasted by the tumultuous roars of a rousing pep rally reflects the traditional spirit of PHS, a spirit acknowledged throughout the state and nation. Yes, PHS contains spirit, a spirit as old as the school itself and as perennially fresh as an April morning. The congenial air of friendliness and the quiet reserve of self-respect portray the true qualities of a dedicated institution.

The old with the new; the mature with the young . . . these are the hallmarks of a generation . . . these are the hallmarks of a tradition. These pages portray the life at PHS; these pages are familiar.

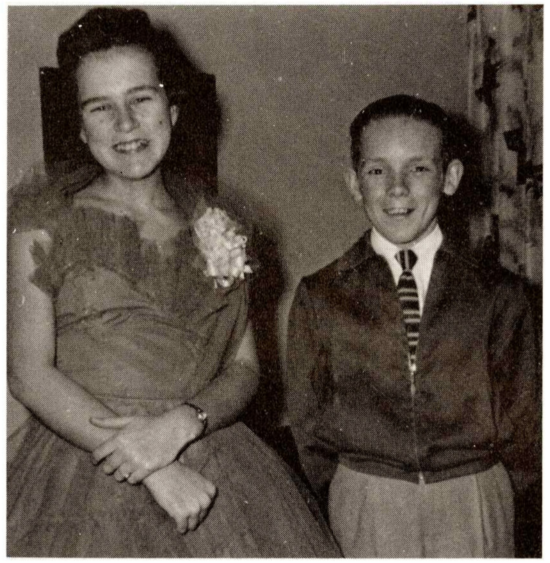
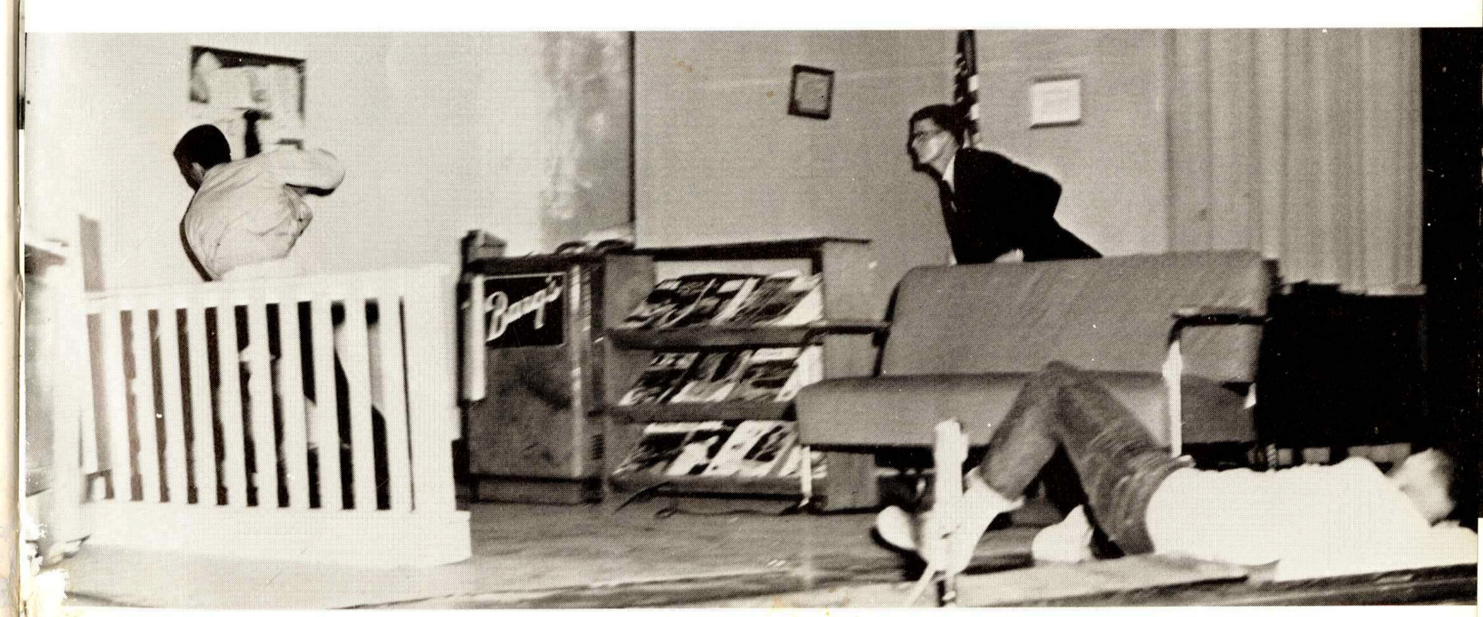
My, what big ears you have, Granma.

No, he just stuck his foot in his mouth.

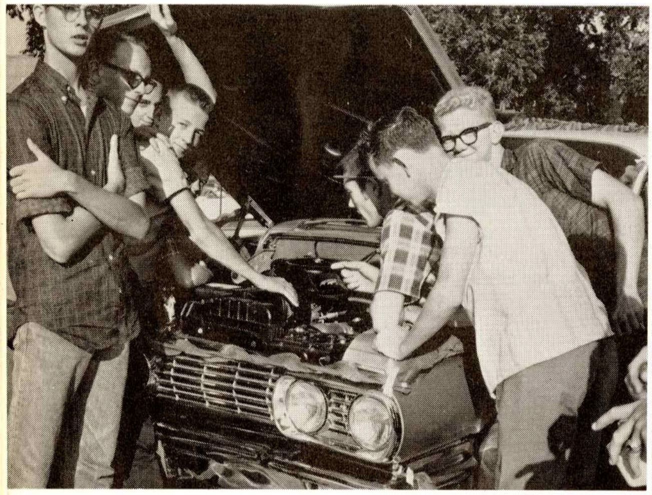


Gone are the days . . .



Oh, those blasted mosquitoes!

We're marching to Pretoria.



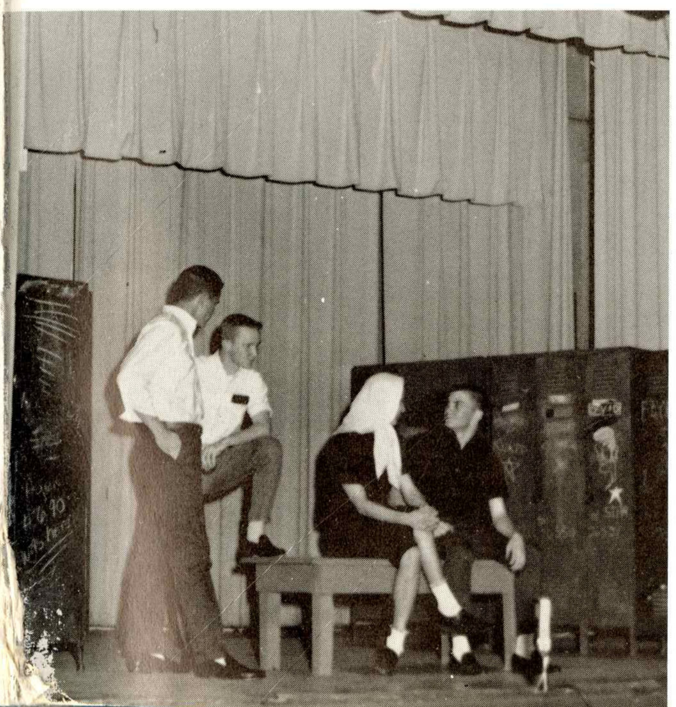
But it was there yesterday.

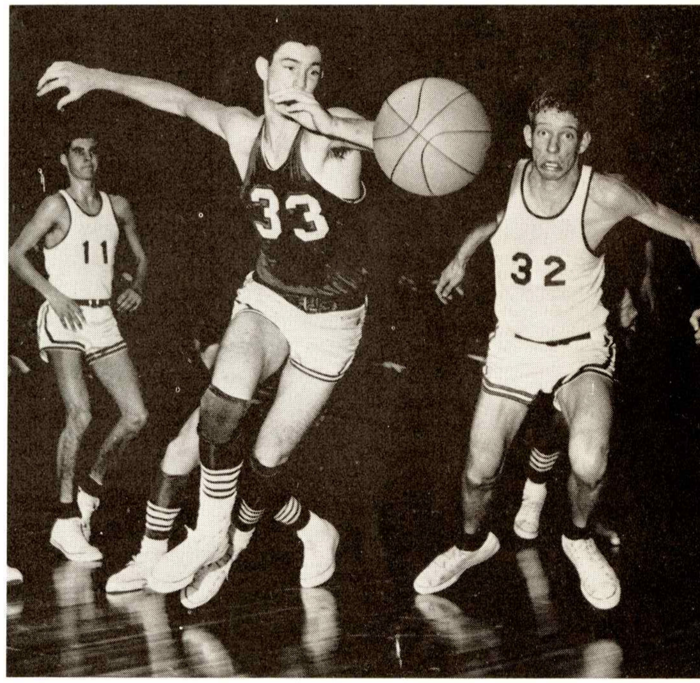
But they said it was the fountain of youth.

What if we are double-parked?

Its just as good as a fingernail file.

See, I told you nine out of ten girls prefer Aqua-Velva.





But I didn't know it was his ball.

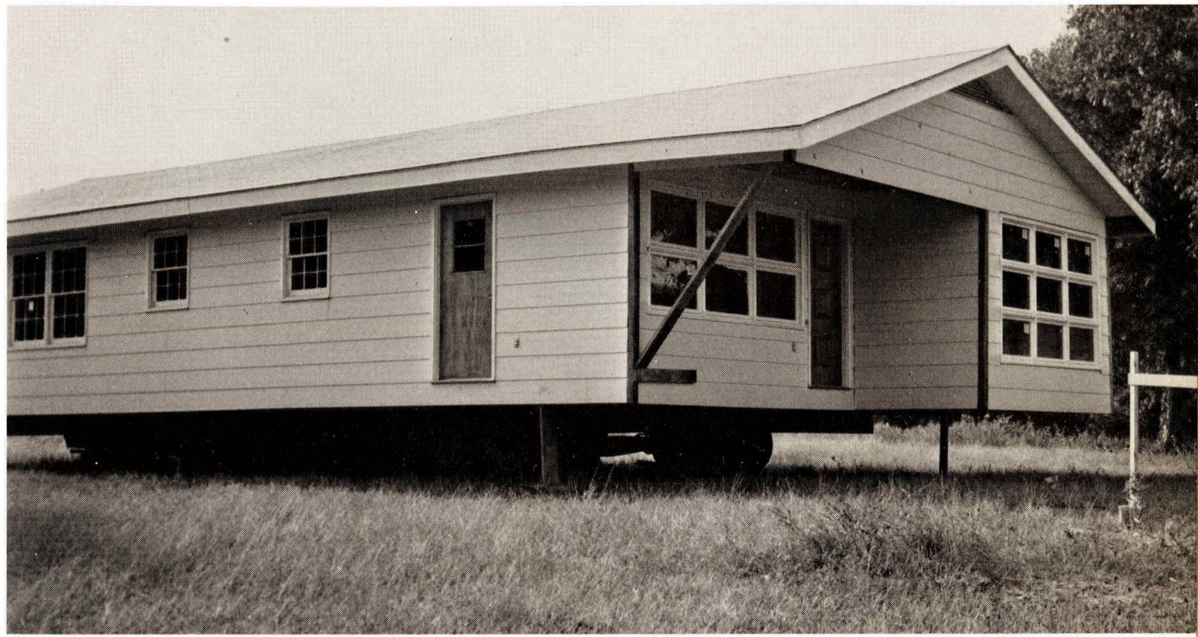
Vocation Department

The P.H.S. Vocation Department prepares students to enter various trades upon graduation from high school by giving them actual work experience.



Hauling one house away means get to work on another one for Building Trades boys.

Now that ought to be about the right length.

Nurses Training

Glenn,
you are one of
the greatest persons I
know, and I hope you al-
ways stay that way. Always
keep your ambitions as high, as they
are now ~~and~~ please for me. You are
wonderful and I love you that way. I want you
to stay the way you are now always, but I
still want you to improve yourself. You have fine
qualities and you can really make something out of your
life. I hope you will never stop improving yourself;
hook your wagon to a star and not a mule. You have
only one year left in high school, so make the best of
it. You are such a fine person and I am sure that
you will stay that way as long as you try to be a
fine person. I admire you greatly for your
high standards and your love for beauty.
As long as you keep these good
qualities and you apply them
you will always be a
fine person. Take
care of your
sister
and

try to
understand
her even though
it may be hard.
Charlotte is hard to
understand, but it can be
done. It is hard for me to put
into words all that I feel for you.
You have been so wonderful to me and
given me so much. You have
given me hope, because I thought that boys
† like you "just" weren't around anymore. I always
aimed, as Charlotte does now, for the gutter, and as a
result I got the gutter. Now I ~~keep~~ have hopes for a new
and better life†. You have given me love, true love and
not just sex love. You do not know how important
this means to me. You have given me faith, faith in
God, because I thought that God just was not there. You
proved to me in your own way that he was there
and he always will be. You have given me
happiness, although a little sadness at times.
I have ~~never~~ never been ~~so~~ as happy in
my life as I am when I am with
you. You have always been
good to me although
sometimes you have
been just a little
unfair.

hope I have
given you at
least half as much
as you have given me.
I know it means alot to
you to be a chemical engineer.
I hope with all my heart and
soul that your dream will be fulfilled
and what you will be happy. Anything that
makes you happy, makes ~~to~~ me happy. I will
miss you a great deal and I hope you will miss me as
much as I will miss you. It is going to be very hard
for both of us. Work hard and be good. I will love you
always. Please don't ever become conceited. I'm serious. I mean
what I say.

Connie
1964

P.S. Look at your picture
Erase this in pencil.

Glenn,
As I said in
my letter I still
care a lot for you,
enough to forgive you.
If you have lost my ring. Every-
thing that I ~~to~~ wrote before still
goes. I will continue to write even
though you may not read them. I do not
have much more to say. Be good.

Connie

Aleena,

All my life
you have taken
care of me and kept
me when help was
needed. I pray that you
may always stay the way
you are now [illegible] you do
you will be a great [illegible]
future. Remember that [illegible]
always [illegible] not around.

your loving sister,
Charlotte

Glenn,

I hope, for your own sake, that you never become conceited. That would be the most horrible thing that could ever happen to you. You have such good qualities that would be ruined if you ever became conceited. I only tell you all these things so you will understand how I feel towards you. I am also trying to tell you that there is still room for improvement. No one is so perfect that he does not need improvement. It is good to know you have good qualities, but please do not brag about them. People will like you better if you don't. I hope I have given you happiness as you have given me, and I know I have given you love, because I do love you. I have tried to make you happy and I hope that I have succeeded.
